

GOVERNORS LANDING HOA

TRASH/RECYCLING RULES

- 1. Trash, garbage and recyclable materials must be placed in proper containers. A list of recycling guidelines is attached. The list is also printed on your recycling bins.**
- 2. Trash day is Monday. Pick up time is between 8:30 and 10:00 AM. Those who are not early risers should place their trash outside at the street on Sunday night. Anyone who puts their trash/recyclables out too late for pickup on Monday should bring their bins back inside as soon as they realized that they have missed the pickup.**
- 3. Trash receptacles should be placed to the left of the pedestrian gate, while facing the townhouses from the street, so as not to block the walkway.**
- 4. Trash cans, other than trash day, must be stored inside the homeowner's garages.**
- 5. When leaving town over the weekend prior to trash day, trash containers should be placed inside the pedestrian gate against the wall. One of your good neighbors will place it at the street on Monday morning.**
