The building has been subdivided into eighteen (18) units, hereinafter defined, as well as the common areas and facilities, also hereinabove defined, of the building. The building has been principally constructed with wood, concrete and asbestos shingle roofing. The building plans and specifications for the building are the same as those for the building of Phase 1 of Seascapes, which said plans and specifications are recorded as part of Exhibit "C" in the DECLARATION recorded in Book 1200 beginning at Page 969, as amended, referred to hereinabove, and reference thereto is hereby made for a more detailed description of the building beyond that contained in Exhibit "A" attached hereto and made a part hereof by reference; which said Exhibit "A" shows all particulars of the building as required by law.

The term DECLARATION shall mean and refer to that DECLARATION CREATING UNIT OWNERSHIP OF PROPERTY UNDER THE PROVISIONS OF CHAPTER 47A OF THE GENERAL STATUTES OF THE STATE OF NORTH CAROLINA which is recorded in Book 1200, beginning at Page 969, as amended, in the Office of the Register of Deeds of New Hanover County, North Carolina.

4. The term Supplemental Declaration shall mean and refer to this instrument.

5. The term Unit or Condominium Unit shall mean and refer to any one of those eighteen (18) subdivisions of enclosed space within the building, together with any additional areas or spaces accompanying the same as defined hereinbelow, and which are intended to or will be sold as dwelling units pursuant to the Act and this Supplemental Declaration. The deed for any particular unit shall convey such unit by its unit designation and the same shall be deemed to include all that is defined as a part of that unit as stated specifically in this definition, as well as the privileges and appurtenances accompanying any such unit and subject to the covenants, conditions, restrictions, and obligations applicable to unit owners as all are more generally stated and described throughout this Supplemental Declaration.

The eighteen (18) units of the building are and will be identified by their unit designations, which are Units E-1 through E-18, both inclusive, Building E. These units and their designations are shown upon the plans of the building attached hereto in Exhibit "A" which also shows graphically all particulars of the building and its eighteen (18) units, including, but not limited to, the layout, location, ceiling, and floor elevations, dimensions of the units, and the area and location of the common areas and facilities. Reference is hereby made to said plans for the purposes of identifying and locating each unit within the building, as well as identifying its dimensions and approximate areas. No unit bears the same designation as any other. Any conflict between said plans and this definition shall be resolved by reference to the said plans, which shall control.

All units, as well as the additional areas defined as part of each unit hereinbelow, are bounded both as to horizontal and vertical boundaries by the interior finished surface of the units' perimeter walls, ceilings and floors, of the interior surface of the perimeter walls, ceilings, and floors of the additional areas conveyed as part of each unit as defined hereinbelow, subject to the easement reserved hereinbelow for such encroachments as are contained in the building whether the same now exist or may be caused or created by existing construction, settlement, or

movement of the building, or by permissible repairs, construction, or alteration.

All units shall be substantially the same in design, construction and material. Each of the eighteen (18) units is wholly contained within one of the three levels or stories of the building, there being six (6) units upon or within each of the three levels or stories of the building above the ground level situated on finished grade. Each unit contains approximately 532 square feet of heated floor space.

Each unit shall have one bedroom, one full bathroom and one-half bathroom located off the bedroom, a combined living and dining area, a kitchen, a closet housing the air handling equipment, and a clothes closet which also houses the water heater, located in the bedroom. In addition, washer and dryer connections are located off the bedroom.

Each unit is hereby defined to include one open-air deck, shown on said plans, which is located adjacent to the living area of the unit. Each deck contains approximately 116 square feet.

The deck is bounded horizontally by the interior finished surface of the floor and ceiling overhang of the deck and is bounded vertically by the interior finished surface or interior plane of either the deck railings or perimeter walls of the deck. The outside storage room is bounded both horizontally and vertically by the interior finished surface of its ceiling, floor and perimeter walls.

Each unit shall be equipped by the Declarant with and is defined to include its own electrical meter, and a split system heat pump. The air handling equipment for said heat pump shall be housed within the unit within the closet designated for said purpose in said plans. The condensing units of said heat pumps shall be housed and stored as shown on said plans. The thermostat for said equipment shall be located within the unit as shown upon said plans.

Each unit is hereby defined also to include:

1. All non-load bearing partition walls located entirely within the unit;

3. All air handling and condensing units, ducts and components, and all water, power, telephone, television and cable television, electricity, plumbing, gas and sewage lines, located within the unit; provided, however, that the portion of said lines located within a common compartment for, or installation of, such lines shall be common areas and facilities as defined hereinabove.

Each unit is hereby defined to exclude all pipes, ducts, wires, conduits and other facilities for the furnishing of utility services and other services to the units up to and including the point of entry of such pipes, ducts, wires, conduits and other facilities through the interior finished surface material for perimeter walls, ceilings and floors of the units. All such pipes, ducts, wires, conduits, and other such facilities are defined as a part of the unit at and from their point of entry into the unit.

The definition stated hereinabove for "Unit" is complete and all other aspects of the condominium not hereinabove defined as a part of the units of Phase 4, Phase 3, Phase 2 or Phase 1, is defined hereby as a part of the common areas and facilities of the condominium.

Any inconsistency between the definition herein set forth and the plans as shown on Exhibit "A" hereto shall be resolved in favor of said plans.

6. The term Unit Designation shall mean and refer to the letter and number combination which designates a unit within the condominium as the same is shown upon the plans of the building in Exhibit "A" attached hereto.

ARTICLE III.
